PROFILE

Artificial Intelligence & Data Science undergraduate with a strong passion for building intelligent, data-driven solutions. I specialize in transforming raw data into meaningful insights through Machine Learning, statistical analysis, and clean code practices.

EDUCATION

B.Tech/AI & DS , Rathinam Technical campus ONGOING	07/2024 – 06/2028 COIMBATORE
HSC+2 , Karthi Vidhyala Matric Higher Secondary School percentage=70%	06/2023 – 05/2024 Kumbakonam
SSLC , Karthi Vidhyala Matric Higher Secondary School percentage=58%	07/2021 – 03/2022 Kumbakonam

TECHNICAL SKILLS

Programming Skills 
(Deep in java, DSA, python, C++, R, Cloud Computing)

Web Technologies 
(HTML&CSS, JavaScript, Node js, My sql)

Data Science Libraries 
(NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn)

Tools & Platforms 
(deep in Ai, Vs code, Eclipse, Excel, Power Bi, AWS, Canva, Figma and other AI tools and platforms)

Soft Skills 
(Logical Thinking and Logic Building, Designing, Quick Learner, Handle Errors, hard problem easy solution)

Version Control 
(Git and GitHub)

PROJECTS

Coffee Sales Prediction App 📄, (Using Linear Regression)

Developed and deployed a **Coffee Sales Prediction App** using Machine Learning and Streamlit to forecast sales in real time based on temperature, customer count, weather conditions, staffing, and promotional factors

Insurance Prediction App 📄, (Using Logistic Regression)

Built an **Insurance Purchase Prediction App** using Logistic Regression to classify whether a customer will buy insurance based on age, achieving 100% model accuracy and deployed as an interactive Streamlit web application.
